Record stored as unscored (confidence = null)
Find candidate priors: same aircraft, earlier in time, at least one matching signal, at most 25
candidates?
no
scored, no_candidates; no_action; no model call
yes
cascade mode and screen < 0.79?
yes
deterministic screen decision (no model request)
no
Model classifies the top pair (legacy: 5 votes; cascade: 2, then 5 on a split)
route(label, confidence, 0.50)
parse failure, vote split (cascade), contradicts, partial_supersedes → needs_review
no_conflict, scope_disjoint → no_action
supersedes, confidence ≥ 0.50 → auto_accepted + SUPERSEDES edge; otherwise needs_review
Supervisor accepts, or rejects with a note → reviewed; the record is never deleted
