#	Objective	Status	Measurable check
1	Structured maintenance knowledge graph	Done (Mid scope)	2,079 records and 118 aircraft in Neo4j; relationships `ABOUT`, `PRECEDED_BY`, `SUPERSEDES`
2	Record ingestion and normalisation	Partial	CSV ingest with explicit skip counts and duplicate safety; no free-text extraction
3	Asset-aware historical retrieval	Done	Retrieval bounded to the aircraft history plus a capped fleet scan (Section 6.6.2)
4	Semantic retrieval	Not started	Planned for FYP-1 Final; not claimed
5	Evidence-aware diagnostic ranking	Done (heuristic)	Deterministic, documented weights; scores are not probabilities
